

LINMALAYRAJ KUMAR

Full Stack Developer

7853923669 | 1509rajkumar@gmail.com | linkedin.com/in/linmalayraj-kumar62 | github.com/RajKumar0047

CAREER SUMMARY

Motivated B.Sc. Computer Science graduate with practical experience gained through the Prime Minister Internship Scheme (PMIS) at Infosys Limited. Skilled in Java, full-stack web development (React, Node.js), and database management. Proficient in building modular, maintainable applications with clean architecture. Actively expanding expertise in REST APIs, cloud platforms, and AI-integrated tooling. Seeking an entry-level Software Developer or Full Stack Developer role to contribute to impactful product engineering.

EDUCATION

B.Sc. Computer Science 2022 – 2025

NIST University, Odisha · CGPA: 7.2 / 10

Intermediate – PCM + Computer Science Completed

St. Xavier's High School · 67%

TECHNICAL SKILLS

Languages	Java · Python · JavaScript · SQL · HTML · CSS
Frontend	React.js · HTML5 · CSS3 · Responsive Design
Backend	Node.js · REST APIs · Core Java · OOP · JDBC
Databases	MySQL · PostgreSQL · DBMS Concepts
CS Concepts	DSA · SDLC · OOP · Design Patterns
Tools	Git & GitHub · VS Code · IntelliJ IDEA · Postman
AI / Modern	GitHub Copilot · ChatGPT API basics · Agile / Scrum

PROJECT EXPERIENCE

Issue Tracker System Java · JDBC · MySQL

github.com/RajKumar0047 · CLI Application

- Designed a console-based issue tracking tool with layered architecture and JDBC database integration.
- Implemented user authentication, issue creation with priority/status management, and role-based access.
- Applied exception handling and input validation for robust, production-style code quality.

Movie Ticket Booking System

Java · Collections · Custom Exceptions

github.com/RajKumar0047 · CLI Application

- Developed a booking system supporting multi-show seat selection, cancellations, and availability validation.
- Implemented custom exception hierarchy and service-layer separation for scalability.

CERTIFICATIONS & LEARNING

- Infosys Springboard – Java, OOP, DSA, DBMS, SDLC (PMIS Curriculum, 2025)
- Currently pursuing: AWS Cloud Practitioner Essentials (target: Q3 2026)
- Active learner on LeetCode – consistent problem-solving in Java & Python

EXTRA-CURRICULAR ACTIVITIES

- Actively participates in college tech fests and coding competitions.
- Regular contributor to peer study groups focused on DSA and competitive programming.
- Self-driven learner — follows tech blogs, YouTube channels, and open-source repositories to stay current.

INTERNSHIP EXPERIENCE

Software Developer Intern – Infosys Limited

Aug 2025 – Present

Prime Minister Internship Scheme (PMIS) · Infosys Springboard

- Completed structured training on Core Java, OOP, DSA, and DBMS aligned with Infosys engineering standards.
- Applied SDLC principles and modular coding practices in simulated real-world project scenarios.
- Practised clean code, exception handling, and unit-level debugging across multiple problem sets.

ACHIEVEMENTS

- Selected for PM Internship Scheme (PMIS) 2025 at Infosys — competitive national programme.
- Completed 4 full project builds during internship, demonstrating rapid delivery and self-initiative.
- Consistent DSA practice — applying algorithms and data structures across all project implementations.
